MONK GIBSON CAUGHT STORY IS STARTLING.

Found In a Barn In an Almost
Famished Condition.

NEGRO IS HIS CAPTOR

Been In a Barn Nine Days, Slipping
Out at Night After Chickens,
Which He Devoured In
Raw State.

Edna, Tex., Oct. 9.—Almost starved to death, Monk Gibson, charged with the murder of the Condit family near here, was captured by Walter Warren, also a negro, this morning.

Gibson was hiding in the barn of George Bayles, where for nine days he had been laying under hay. At night Gibson said he would crawl out, catch chickens and eat them raw.

As Warren was passing the barn he saw a human eye at a crack. Hastening inside he found the much wanted Gibson faint from hunger. Warren tied him and sent another negro to notify an officer. He then marched Gibson toward Edna. On the way Deputy Sheriff Powers and a posse of state rangers were met by Warren and the captive turned over to them. Gibson was at once jailed and two companies of militia placed around the structure. The grand jury was convened.

The news of the capture of Gibson spread like wildfire and hundreds of citizens hurried to the jail. There was much exciting talk. Whole families from the surrounding country came in all kinds of vehicles.

Governor Receives News.

Austin, Oct. 9.—The news of the capture of Monk Gibson was received Monday morning in a telegram that was sent Governor Lanham by Adjutant General Hulen, which merely stated: "Monk Gibson was arrested at 8:30 o'clock this morning. Is now in jail."

TWO BURN TO DEATH.

Mrs. Carl Carlson and Miss Ella Larson Are the Victims.

Austin, Oct. 9.—Fire consumed the residence of Carl Carlson Monday morning at Delvalle, this county. Before Mrs. Carlson and Miss Ella Larson could make their escape they were overcome by the flames and burned to death.

ANOTHER ROAD JOINS.

Fort Worth and Denver Railway Seeks to Enjoin the Commission.

Austin, Oct. 9.—Fort Worth and Denver railway has joined other roads in injunction suits against the railroad commission, enjoining dry goods order. Several railroad attorneys had a conference Monday with the attorney general.

CLAY RETURNS.

Insurance Commissioner Has Been Investigating New York Life.

Austin, Oct. 9.—Insurance Commissioner Clay has returned from New York, where he has been investigating the New York Life Insurance company. He stated he would prepare a statement of the results of his trip.

Five Men Injured.

Houston, Oct. 9.—The Hill street bridge, between the Fifth and Second wards, collapsed, severely injuring five of the employees engaged in reflooring the structure. Five spans gave way, and the men were crushed between the timbers and brick abutments.

Baby's Body In Sack.

Paris, Tex., Oct. 9.—The body of a sin-born baby, a boy, was found in a sack weighted down with a stone in a pool south of here. Twenty witnesses were before the grand jury Monday.

DENIED BY TAYLOR.

Application of Ramsey to Restrain Missouri Pacific Not Granted.

St. Louis, Oct. 9.—In the St. Louis circuit court Monday Judge Taylor denied the application of Joseph Ramsey, Jr., the deposed president of the Wabash railroad, for an injunction to restrain the Missouri Pacific and Iron Mountain roads or their trustees from voting Wabash stock held by or for those railroads in the annual Wabash election, to be held at Toledo. News of the decision was telegraphed at once to Toledo, where George Gould and his supporters and Joseph Ramsey and his personal advisers were awaiting the decision. If successful the injunction would have tied up a large block of Gould stock. This is regarded as the most important of the Gould interests.

Seventeen of the Number Were Children of the Other Two.

Chicago, Oct. 9.—The seventeen children of Mr. and Mrs. Jesse Middleton sat down to dinner with their parents Sunday. The children, ranging in age from three to thirty-seven years, came from Illinois, Wisconsin, Indiana and Arizona to attend the reunion. It was the first time the entire family had been together. Mr. Middleton came to Chicago in 1871, just after the fire, and became a wholesale news-dealer. He is now a watchmaker.

Sister of Late Louis Hunt Relates
Terrible Tale.

BRUTAL TREATMENT

Woman States She Had to Work as
a Man, Could Receive No Com-
pany and Repeatedly Hit
by Her Brother.

Vinita, I. T., Oct. 9.—The Federal grand jury has completed its investigation of the Louis Hunt murder case, and has returned indictments against a number of persons charged with complicity.

Ed Harlin was indicted on a charge of murder and will be the first one brought to trial. He claims he acted in self defense when he killed Louis Hunt.

Mrs. Flora Hurley has been indicted as an accomplice to the murder. She is a sister of the dead man. In an interview Mrs. Hurley, who has a mother and little sister, they living with her brother on a farm near Welch, said that she had been a slave for her brother and he never allowed her to have company, or go anywhere, or even write letters. That she had to perform man's work on the farm and he frequently beat her. When she threatened to tell of his brutal conduct he threatened to kill her. That he abused her mother and threatened to nail them up in the house and burn them alive. "It was in one of his fits of rage that Ed Harlin chanced to pass by and heard my screams, and I threatened to tell Ed Harlin of how he treated me, when Louis Hunt, my brother, said if Ed Harlin ever crossed his path he would leave him in the woods, meaning he would kill him."

"I have never been at the Harlin house but a few times, and that was while Mrs. Harlin was there, and I never knew of the killing until after it had happened. I never told my mother what had happened. When I saw my brother dead I did not have the least pity for him, nor have I regretted it since. Many times during the last few years I would have killed him myself if I could have done so. The only peace I have had in all my life is since he is dead, as he was continually raising trouble with me. A short time ago I made him a new suit of underwear, and because I worked on the underwear on Friday he took the clothes out and chopped them into small pieces with an ax and then burned the cloth up in the stove. If he had any friends in the community I did not know who they were. My mother and I have oftentimes offered to give Louis Hunt all the property we owned if he would let us go away and live to ourselves, but he always refused and threatened to kill us if we continued our offers. My brother always kept whiskey about the place and when he would take fits of madness he would drink heavily. I do not regret that my brother is dead, and I am willing to go before the judge and jury and tell the true story so that the world may know my story of the affair and of my connection with it."

RECONVENING CALL.

Constitutional Convention Meets Again on the Eleventh Instant.

South McAlester, Oct. 9.—A call was been issued for the reconvening of the constitutional convention here Oct. 11, by the chairman, Chief Porter.

The call simply says the corrected draft of the constitution is to be signed but it is understood that the meeting is also primarily for the purpose of eliminating the clause in the constitution providing for the "open shop" to which the labor unions have so seriously objected. The leaders of separate statehood admit now that the clause is a mistake, which, unless eliminated, will result in combined opposition of organized labor and the defeat of statehood. Labor leaders are jubilant over the turn affairs have taken and say that with the objectionable feature out, organized labor will heartily support the separate state movement and the proposed constitution.

BALDWIN'S BATTERY.

Artillery, Cavalry and Infantry Do the Attacking in Sham Battle.

Lawton, Okla., Oct. 9.—Sunday morning General Frank Baldwin of Oklahoma City, in command of a battery of artillery, two troops of cavalry and a battalion of infantry, took part in a sham battle against five batteries of artillery and two troops of cavalry in command of Colonel William Howe, of Key West Barracks, Fla., against Fort Sill. General Baldwin was successful by making his attack from the east, where it was least expected and most poorly defended. One flank of Baldwin's troops went entirely around the outposts and crossed the railroad, showing that they could destroy the railroad and telegraph communication in time of war.

Found Dead in Lake.

Chicago, Oct. 9.—Submerged in Lake Michigan at the foot of Barry avenue and with a bullet wound in the right temple the body of Frank Meschaellowsky, a real estate dealer, was found. Apparently death had been caused by the wound. John Reznick was held by the police. His arrest followed information given by his sister, Maria, who said the two men frequently had quarrelled recently.

CARD FROM J. A. D. ROBINSON

To the Farmers of Brazos and Surrounding Counties.

The directors of the Central Texas Fair Association at Bryan have asked me to again superintend the agricultural exhibits at the coming fair, October 17 to 20th. I desire that the best possible showing be made in the products of the farm, orchard and garden, and at the same time I fully realize the difficulties under which we have labored during the past year. The floods of the early spring and the long continued drouth of the summer and fall, make it exceedingly difficult for us to get anything together that is at all creditable, but the idea is to do the best you can. All are in the same fix and consequently all stand on a common footing. Select the very best things you have and bring them to the fair, and by arranging them properly we will have a creditable exhibit and show to all the world what old Brazos and surrounding counties can do, even under the conditions that have existed this year. The fair is a great thing for our county and we owe it to the Association and to ourselves to help it out in every way we can. Bring your exhibits as early as possible. If you can't bring much, bring little, but bring something.

Respectfully,
J. A. D. Robinson.

ATTEMPTED ASSAULT.

Screams of Two Young Ladies Made Scoundrel Run Off.

Thornton, Tex., Oct. 9.—Some unknown person, supposed to be a negro, made an attempt to assault Misses Ena Adams and Rena Cox in the back yard of J. W. Alston, but was frightened off by their screams. Guards were stationed on the railroad north of town, and a negro coming along the track was commanded to halt, at which he broke to run. Four or five shots were fired at him, and he was supposed to be hit, as blood was found at the wire fence where he passed through.

AWFUL ACCUSATION.

Widow Alleges Husband Was Entangled So Horse Could Kick Him.

Bellville, Tex., Oct. 9.—A man named Gabelman was jailed here on complaint of Mrs. Meyer of Industry. The latter alleges that Gabelman entangled her late husband in a rope and placed a horse near enough to Meyer to kick him to death. The accused says Meyer accidentally was entangled in the rope.

FOR TARIFF REVISION.

Substitute Platform Written by William J. Bryan Voted Down.

Boston, Oct. 9.—Massachusetts Democratic state convention nominated General Charles W. Bartlett of Boston for governor. Platform demands for a revision of the tariff and the free admission of coal, iron, lumber, hides, wood pulp and other raw materials; commends the "diplomatic courage and sagacity" of President Roosevelt in aiding to end the war in the far east; calls for states supervision of insurance companies, and recommends municipal ownership of public utilities.

A substitute platform, offered by Delegate Watson of Boston, and which, in answer to an inquiry from an occupant of the gallery, he stated was written by William J. Bryan, was overwhelmingly voted down. The substitute reaffirmed the financial views of Mr. Bryan and advocated municipal ownership of public utilities, also control of railroad rates and of great industrial corporations and insurance companies. During its reading Mr. Watson was many times interrupted by hisses and jeers, but as he several times stated he would read it if it took all night he was permitted to proceed.

WHY?

The reason One Minute Cough Cure relieves a cough in one minute, is because it acts first on the mucous membrane right where the cough troubles—in the throat or deep-seated on the lungs, destroying the microbes or cough germs and clearing the phlegm. One Minute Cough Cure not only destroys the disease germs, and clears out their poison, but it gives strength and elasticity to the delicate membranes which protect the throat and lungs. Opens the air passages and promotes unobstructed breathing. Causes the blood to receive its natural supply of oxygen, thus exhilarating the pulmonary organs with such strength and vigor that the lungs and bronchial tubes become bulwarks against the inception of disease. Asthma, Bronchitis, La Grippe, Croup, Croup of the Lungs and all Pulmonary Complaints that are curable are quickly cured by the use of

STEADILY DISAPPEARS.

Statements of Dr. White Are Being Sustained Right Along.

New Orleans, Oct. 9.—Rain fell here incessantly for twenty-four hours and all sanitary work had to be suspended, but the fever situation continues its improvement, the clean death sheet on Sunday emphasizing the statements heretofore made in these dispatches that there were fewer cases of actual yellow fever developing than were being steadily wiped out. For the week ending Oct. 7 the total was 176 new cases and twenty-two deaths reported against 183 new cases and 23 deaths in the preceding week, this showing being the best since the first week of August. From all infected points in the country come reports of steady progress.

Hotel registers are beginning to swell again, showing people elsewhere are overcoming fears concerning danger here. There were twenty-seven arrivals from various parts of the country at one hotel on Sunday. The influx of people from Louisiana points continues, and there are additional assurances that within the next ten days there will be a relaxation of quarantine so far as they affect passenger traffic. Four New Orleans theaters opened on Sunday, giving day and evening performances. There was standing room only at each of them.

There were no admissions, no deaths and no discharges reported by the emergency hospital for the twenty-four hours ending early Monday. The hospital is caring for two more people from Rosetta, Miss., in addition to the family sent there last week. The latest arrivals from the infected town got here Sunday and went voluntarily to the hospital to serve the five-day period of detention.

Although Mississippi continues a rigid quarantine in spite of distribution of infection of that state, an effort is to be made to reopen communication with the gulf coast under conditions. Families of many New Orleans business men are still on the coast and anxious to have intercourse with the city. Dr. White considers little danger will be involved in the resumption of travel between New Orleans and Mississippi towns.

For the state during the twenty-four hours ending with Sunday night two deaths were reported—one at Lake Providence and the other at Alexandria. The latter is reported as Ben Harris, a tramp, who had a typical case. Harris is from Philadelphia, where his family is reported to be of fine standing.

On the report of two of its inmates suffering with yellow fever the big Seamen's Bethel will transfer its Saturday night concert to another hall. A careful diagnoses, however, shows the institution not infected, the cases of the two patients being malaria.

The emergency hospital at Wildwood plantation, in Jefferson parish, just above the city, is now in operation. There are nineteen cases of yellow fever there, but with physicians and trained nurses constantly in attendance it is thought the mortality will be small. Up to noon Monday there were seven new cases and no deaths.

NO DEATHS SUNDAY.

This Is the Second Day When No One Has Passed Away.

New Orleans, Oct. 9.—There were no deaths Sunday up to 6 o'clock in the evening. Nineteen new cases were reported. This is the second time during the present yellow fever visitation that a day has passed without a death, Sept. 11 being the other occasion.

A footnote to the official report says that Mrs. John Duffy died Friday, and the doctor's certificate, given Saturday, showed the cause of death to be congestion of the brain. This case had been diagnosed as yellow fever on Oct. 5 by a marine hospital surgeon, and it is the basis for the second charge of failing to report a case, which has been made against Dr. Szabary.

Among the new cases is a reporter on an afternoon paper, whose brother was stricken two days before. Only six of the cases are above Canal street.

Dr. Brady, the medical inspector, submitted a very interesting report on the situation in St. Tammany parish, where he made a thorough investigation. He traces the infection in Covington and Abita Springs to New Orleans, but says that in one place secondary infection is in evidence and in the other tertiary infection is due.

Following are the country reports: Alexandria, one death.

Gretna, one new case, brought from Grand Isle.

Union plantation, in Jefferson parish, seven cases.

Mississippi reports: Vicksburg, eleven new cases.
